GitHub | LinkedIn | Email | Behance

Summary

Junior Flutter Developer with practical experience in Flutter, Dart, and UI/UX principles, focused on building responsive and user-friendly mobile applications. Passionate about creating innovative digital solutions with clean architecture, state management, Firebase integration

Educations

Bachelor's Degree in Computer and Information Science (2020–2024) – Grade: B–

Experience

LogiClub – Coding Coach | October 2024 – Present

Teach children (ages 7–12) programming and robotics through interactive, project-based lessons.

Mentor students to design and program creative projects using PictoBlox and LEGO Robotics.

Promote collaboration, critical thinking, and curiosity through engaging technology challenges.

Projects

Mind Test [Github]

- Developed a cross-platform Flutter application with interactive UI and responsive design for multiple platforms.
- Applied Flutter, Dart, Firebase integration, API handling, Clean Architecture (MVVM), Cubit state management, custom assets/fonts integration, and authentication features.
- Implemented scalable project structure and maintained organized code for better performance and maintainability.

CV2CAREER Graduation Project Grade (A-) [linkedin]

- Developed an AI-powered solution that converts traditional CVs into **ATS-compatible formats**, ensuring compliance with modern recruitment systems.
- Applied Flutter, Flask, Firebase, Clean Architecture (MVVM), Cubit, Authentication, and API integration.

Developer Junior Planner App [Github]

- Designed an app that helps job seekers explore career paths and discover tailored job recommendations.
- Implemented using Flutter, Firebase, Authentication, and File Picker.

Quizles App [Github]

- Created an educational quiz platform with multiple levels and result tracking.
- Structured data models to ensure smooth performance and intuitive user navigation.

Skills

Flutter & Dart · OOP · Cubit · Shared Preferences · UI/UX Design · HTML · CSS · JavaScript · Bootstrap · C# · C++ · Python · Java

Certifications

LEGO Robotics Teacher Training Program – Logic Club (STEM Accredited)
Aug – Oct 2025 | 39 Training Hours
Completed practical training in LEGO Robotics and Coding education, including lesson planning, classroom engagement, and 21st-century skills development.

Graphic Design (2024)

Flutter Diploma – EraaSoft (2023)

Front-End Development – IEEE Al-Azhar (2023)
